

The morning of March 7 for the children of Malteser Kindergarten was very different because it was the Teacher's Day. All the children wished their teachers with a warm hug and with flowers in their hand. They thanked them for their support all the year.

There are many days in which the Malteser kindergarten children have created a festive atmosphere. They are prepared very carefully together with their teacher poems and songs dedicated to Teacher's and Mother's Day. Along with the feast, there was also the Clown, wearing colorful, organized fun games for children. The children enjoyed even the various entertaining games that the clown performed for them.

With the help of their teacher, they made cards with wishes for their mothers, and gave them to their Mothers at the end of the day.
